Subject: Re: FYI - Article on Fishing Point - Nansemond Indian Nation

Thanks Cat, good flag on this.

For everyone's awareness, I know I'm personally itching to communicate with both tribes the magnitude of changes that are coming, especially given the clear financial planning that they're doing based on the current operating and reimbursement model. However in talking it through with Cheryl this morning it was decided to wait until at least after the CMS call on Thursday to talk to the Tribes about next steps. I think as important as it is to do this quickly, we want to make sure that we can communicate clearly, and we need CMS's guidance on some of the decisions in order to nail them down.

Jeff

Sharing for awareness.

Based on article, clinic has plans to open at least two other locations (Newport News & Norfolk) and references "tribe's commitment to serving the greater community."
